In today's political environment with the emphasis on testing, standards, and accountability, teachers can easily feel frustrated by the amount of time and resources left over for teaching\_for guiding students not only in academics but also in character education. Educators can find themselves losing focus of what initially inspired them to teach. *Teachers as Servant Leaders* provides pre-service teachers and those currently in the profession with a renewed perspective of not just being a content expert or classroom/behavioral manager, but leaders within their own classrooms, school buildings, and local communities. Building on *Servant Leadership: A Journey into the Nature of Legitimate Power and Greatness* by Robert Greenleaf, this book applies the concept of servant leadership to the classroom teacher where the focus is on service to students, parents, colleagues, the school and community.
