Telemonitoring - mobile Datenerfassung am Patienten (German Edition)

Christian Kunzendorf

Telemonitoring - mobile Datenerfassung am Patienten (German Edition) Christian Kunzendorf
Studienarbeit aus dem Jahr 2006 im Fachbereich Informatik - Internet, neue Technologien, Note: 1,7,
Universität der Künste Berlin (Institute of Electronic Business), Veranstaltung: Mobile Business, 17 Quellen
im Literaturverzeichnis, Sprache: Deutsch, Abstract: Diese Arbeit beschäftigt sich mit der mobilen
Datenerfassung an Patienten. Dieses Themen-feld wird auch als TeleMonitoring bezeichnet und ist ein
Teilbereich der TeleMedizin. Unter Telemedizin lässt sich der „Einsatz von Telematik zur Überwindung
einer räumlichen Tren-nung zwischen Patient und Arzt oder zwischen mehreren behandelnden Ärzten“
verstehen. Somit ist TeleMonitoring „die telemedizinische Überwachung chronisch erkrankter oder früh-
zeitig aus der stationären Behandlung entlassener Patienten in deren häuslichem Umfeld.“ Mit Blick auf den
Wunsch nach Mobilität trotz einer Erkrankung und der damit verbundenen Lebensqualität bleibt
TeleMonitoring allerdings nicht nur auf das häusliche Umfeld be-schränkt. Eine ständige Überwachung der
Vitalparameter an jedem Ort und zu jedem Zeit-punkt gilt es als Ziel zu erreichen. In diesem Zusammenhang
wird auch häufig von Mobile Health gesprochen. Mobile-Health ermöglicht, neben der mobilen
Datenerfassung, vor allem auch „die Online-Interaktion zwischen Ärzten, Patienten und weiteren relevanten
Berufs-gruppen. Verwendet werden dabei mobile Endgeräte, wie Mobiltelefon, PDA, Notebooks und vor
allem drahtlose Übertragungstechniken in allen Bereichen des Gesundheitswesens.“ Die Begriffe
TeleMonitoring und Mobile Health sind thematisch gleichwertig, im Folgenden soll jedoch nur der Begriff
TeleMonitoring verwendet werden.

From reader reviews:

Elsie Fiala:

What do you consider book? It is just for students as they are still students or that for all people in the world, the actual best subject for that? Only you can be answered for that question above. Every person has different personality and hobby for each and every other. Don't to be obligated someone or something that they don't desire do that. You must know how great as well as important the book Telemonitoring - mobile Datenerfassung am Patienten (German Edition). All type of book is it possible to see on many options. You can look for the internet sources or other social media.

William Lyons:

In this 21st centuries, people become competitive in most way. By being competitive currently, people have do something to make these survives, being in the middle of often the crowded place and notice by surrounding. One thing that at times many people have underestimated this for a while is reading. Sure, by reading a book your ability to survive raise then having chance to stand up than other is high. In your case who want to start reading a book, we give you this Telemonitoring - mobile Datenerfassung am Patienten (German Edition) book as beginning and daily reading guide. Why, because this book is usually more than just a book.

Lenore Cortez:

Do you certainly one of people who can't read pleasurable if the sentence chained inside the straightway, hold on guys this particular aren't like that. This Telemonitoring - mobile Datenerfassung am Patienten (German Edition) book is readable by means of you who hate those perfect word style. You will find the info here are arrange for enjoyable examining experience without leaving possibly decrease the knowledge that want to offer to you. The writer connected with Telemonitoring - mobile Datenerfassung am Patienten (German Edition) content conveys the idea easily to understand by lots of people. The printed and e-book are not different in the written content but it just different such as it. So , do you nonetheless thinking Telemonitoring - mobile Datenerfassung am Patienten (German Edition) is not loveable to be your top checklist reading book?

Fred Nelson:

As a college student exactly feel bored for you to reading. If their teacher asked them to go to the library or even make summary for some guide, they are complained. Just tiny students that has reading's internal or real their pastime. They just do what the educator want, like asked to the library. They go to presently there but nothing reading really. Any students feel that reading through is not important, boring in addition to can't see colorful images on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Telemonitoring - mobile Datenerfassung am Patienten (German

Edition) can make you experience more interested to read.
