Understanding Fabless IC Technology (Communications Engineering Series) Jeorge S. Hurtarte, Evert A. Wolsheimer, Lisa M. Tafoya

Fabless (no fabrication) IC (integrated circuit) techniques are growing rapidly and promise to become the standard method of IC manufacturing in the near future, this book will provide readers with what will soon be required knowledge of the subject. Other books on IC fabrication deal with the strictly physical process aspects of the topic and assume all factors in IC fabrication are under the control of the IC designing company. By contrast, this title recognizing that fabless IC design is often as much about managing business relationships as it is about physical processes. “Fabless” ICs are those designed and marketed by one company but actually manufactured by another.

*Written by board members of the Fabless Semiconductor Association, an industry consortium that include Xilinx, Intersil, Micro Linear, and many other members

*Appropriate for a wide range of integrated circuit (IC) designers and users who need to understand the fabless process and its advantages/limitations

*Discusses important topics such as negotiating with outside fabrication companies, choosing the right electronic design tools, protection of intellectual property and business plans, and maintaining quality control

From reader reviews:

Ashley Mansfield:

The book Understanding Fabless IC Technology (Communications Engineering Series) can give more knowledge and also the precise product information about everything you want. So why must we leave the good thing like a book Understanding Fabless IC Technology (Communications Engineering Series)? A number of you have a different opinion about e-book. But one aim this book can give many information for us. It is absolutely right. Right now, try to closer with the book. Knowledge or facts that you take for that, you could give for each other; you are able to share all of these. Book Understanding Fabless IC Technology (Communications Engineering Series) has simple shape but you know: it has great and big function for you. You can seem the enormous world by available and read a reserve. So it is very wonderful.

Tara Scribner:

Information is provisions for people to get better life, information nowadays can get by anyone in everywhere. The information can be a expertise or any news even restricted. What people must be consider any time those information which is inside the former life are challenging to be find than now is taking seriously which one works to believe or which one the actual resource are convinced. If you obtain the unstable resource then you get it as your main information you will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take Understanding Fabless IC Technology (Communications Engineering Series) as the daily resource information.

Bessie Scudder:

Precisely why? Because this Understanding Fabless IC Technology (Communications Engineering Series) is an unordinary book that the inside of the e-book waiting for you to snap the idea but latter it will zap you with the secret the item inside. Reading this book next to it was fantastic author who have write the book in such amazing way makes the content interior easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this any longer or you going to regret it. This amazing book will give you a lot of advantages than the other book have such as help improving your proficiency and your critical thinking approach. So , still want to hold up having that book? If I had been you I will go to the publication store hurriedly.

Lorraine Bryant:

What is your hobby? Have you heard that will question when you got college students? We believe that that problem was given by teacher to their students. Many kinds of hobby, Every individual has different hobby. Therefore you know that little person like reading or as examining become their hobby. You need to understand that reading is very important as well as book as to be the factor. Book is important thing to include you knowledge, except your personal teacher or lecturer. You see good news or update regarding something by book. Amount types of books that can you choose to adopt be your object. One of them is
