Manual para el cultivo de frutales en el trópico. Mango (Spanish Edition) Diego Miranda

"Un nuevo libro en manos del público es muy significativo para una sociedad, pero un libro calificado como de "gran tamaño" y que a la vez haga referencia a una actividad que, como los frutales para Colombia, puede constituirse al lado del café, las flores y el banano en referente obligado de nuestra identidad ante el mundo en los próximos 20 años, tiene una altísima dosis de motivación, no solo desde el punto de vista de los estudiosos de la fruticultura -especialistas y neófitos- sino, principalmente, desde el ángulo de los inversionistas y de los diseñadores de políticas públicas, que tendrán el reto de hacer realidad lo que hasta hoy ha sido una mera lisonja: el tránsito real de una fruticultura de patio a una fruticultura comercial con claros entronques en los principales mercados internacionales.

Por esta razón, y porque en las actuales circunstancias nuestro país tiene dentro de sus apuestas productivas y comerciales, en el marco de los tratados de libre comercio, esperanzas ciertas en este importante renglón productivo, para el Ministerio de Agricultura y Desarrollo Rural más que pertinente resulta oportuno y reconfortante presentar el libro "Manual para el cultivo de frutales en el trópico", que a través de 1024 páginas reúne la experiencia y la visión de un selecto grupo de 48 autores y coautores de reconocida trascendencia en el ámbito de la docencia, de la investigación y del propio ejercicio profesional, en una mixtura que recoge, de manera integral y propicia, los diferentes quehaceres de la actividad frutícola con identidad nacional, pero naturalmente con aplicación a la fruticultura del trópico en general."
