Stochastic Processes in Physics and Chemistry (North-Holland Personal Library)

N.G. Van Kampen

Stochastic Processes in Physics and Chemistry (North-Holland Personal Library) N.G. Van Kampen

The third edition of Van Kampen's standard work has been revised and updated. The main difference with the second edition is that the contrived application of the quantum master equation in section 6 of chapter XVII has been replaced with a satisfactory treatment of quantum fluctuations. Apart from that throughout the text corrections have been made and a number of references to later developments have been included. From the recent textbooks the following are the most relevant.

C.W.Gardiner, Quantum Optics (Springer, Berlin 1991)

D.T. Gillespie, Markov Processes (Academic Press, San Diego 1992)

W.T. Coffey, Yu.P.Kalmykov, and J.T.Waldron, The Langevin Equation (2nd edition, World Scientific, 2004)

* Comprehensive coverage of fluctuations and stochastic methods for describing them

* A must for students and researchers in applied mathematics, physics and physical chemistry

From reader reviews:

Heather Reader:

Why don't make it to become your habit? Right now, try to ready your time to do the important take action, like looking for your favorite book and reading a reserve. Beside you can solve your short lived problem; you can add your knowledge by the reserve entitled Stochastic Processes in Physics and Chemistry (North-Holland Personal Library). Try to make the book Stochastic Processes in Physics and Chemistry (North-Holland Personal Library) as your good friend. It means that it can to be your friend when you really feel alone and beside that course make you smarter than ever. Yeah, it is very fortunated in your case. The book makes you far more confidence because you can know anything by the book. So , we need to make new experience in addition to knowledge with this book.

Vera Harris:

This book untitled Stochastic Processes in Physics and Chemistry (North-Holland Personal Library) to be one of several books which best seller in this year, that's because when you read this e-book you can get a lot of benefit in it. You will easily to buy this particular book in the book shop or you can order it through online. The publisher of the book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Smartphone. So there is no reason for your requirements to past this guide from your list.

Kevin Miller:

Do you have something that you want such as book? The reserve lovers usually prefer to decide on book like comic, brief story and the biggest an example may be novel. Now, why not hoping Stochastic Processes in Physics and Chemistry (North-Holland Personal Library) that give your pleasure preference will be satisfied by simply reading this book. Reading addiction all over the world can be said as the opportunity for people to know world considerably better then how they react in the direction of the world. It can't be explained constantly that reading routine only for the geeky particular person but for all of you who wants to become success person. So , for all you who want to start reading as your good habit, you could pick Stochastic Processes in Physics and Chemistry (North-Holland Personal Library) become your own personal starter.

Peter Landon:

A lot of people said that they feel bored stiff when they reading a book. They are directly felt that when they get a half parts of the book. You can choose typically the book Stochastic Processes in Physics and Chemistry (North-Holland Personal Library) to make your personal reading is interesting. Your personal skill of reading ability is developing when you including reading. Try to choose easy book to make you enjoy to learn it and mingle the opinion about book and examining especially. It is to be initially opinion for you to like to wide open a book and learn it. Beside that the guide Stochastic Processes in Physics and Chemistry (North-Holland Personal Library) can to be a newly purchased friend when you're experience

alone and confuse in what must you're doing of this time.
