105 fiches pour le suivi post-natal mère-enfant (French Edition) Anne Battut, Thierry Harvey, Alexandre Lapillonne

Conçu par une équipe pluridisciplinaire avec une ambition résolument pratique, cet ouvrage propose, en 105 fiches, une synthèse des connaissances indispensables aux professionnels assurant le suivi de la mère et/ou de l'enfant pendant la période du post-partum. Ces fiches pratiques couvrent l'ensemble de cette période et sont regroupées en 5 thématiques complémentaires : l'organisation du suivi de la mère et du nouveau-né, le suivi maternel en post-partum, l'allaitement maternel et l'alimentation du nouveau-né, les pathologies pédiatriques des premiers mois de vie et la parentalité. De nombreux documents téléchargeables complètent la version papier et proposent au lecteur des outils directement utilisables en pratique quotidienne. L'ouvrage s'adresse essentiellement aux professionnels de santé exerçant dans le champ de la périnatalité pendant la période post-natale : médecins généralistes, sages-femmes, gynécologues-obstétriciens, pédiatres, puéricultrices, infirmières, professionnels de santé exerçant en PMI et étudiants.
