## On-line Cognition in Person Perception

The contributors to this collection focus on the cognitive processes that take place during the initial acquisition of information about others (on-line processes) rather than later when memory processes begin playing a dominant role (memory-based processes). Utilizing the methods and concepts of social cognition, the book illustrates how the study of on-line cognition can further our understanding of person perception. *On-Line Cognition in Person Perception* also examines the special cognitive dynamics that are associated with such processes within the domain of social perception.
