**Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast** Daniel Minoli  
**Provides options for implementing IPv6 and IPv6 multicast in service provider networks**

New technologies, viewing paradigms, and content distribution approaches are taking the TV/video services industry by storm. *Linear and Nonlinear Video and TV Applications: Using IPv6 and IPv6 Multicast* identifies five emerging trends in next-generation delivery of entertainment-quality video. These trends are observable and can be capitalized upon by progressive service providers, telcos, cable operators, and ISPs.

This comprehensive guide explores these evolving directions in the TV/video services industry, including worldwide deployment of IPv6, IPTV services, web-produced video content, and the plethora of different screens available, from TV to iPad. It offers practical suggestions as to how these technologies can be implemented in service provider networks to support cost-effective delivery of entertainment, and how new revenue-generating services can be brought to market.

Important topics include:

- Evolving video consumption habits and possible network implications
- An overview of IPv6 address capabilities, protocols, quality of service (QoS), and more
- Process descriptions of IP multicast and IPv6 multicast approaches and challenges
- A detailed overview of IPTV systems and technologies, including architectural requirements, QoE and QoS, security and content protection, networks, and more
- Internet-based TV technologies: streaming, content distribution networks, P2P networks, and cloud computing
- Non-traditional video content sources and their implications

*Linear and Nonlinear Video and TV Applications: Using IPv6 and IPv6 Multicast* is indispensable reading for planners, CTOs, and engineers at broadcast TV operations, Cable TV operations, satellite operations, Internet and IS providers, telcos, and wireless providers.

### **From reader reviews:**

#### **William Nix:**

This Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast book is not ordinary book, you have after that it the world is in your hands. The benefit you have by reading this book is actually information inside this e-book incredible fresh, you will get data which is getting deeper anyone read a lot of information you will get. This Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast without we recognize teach the one who examining it become critical in contemplating and analyzing. Don't be worry Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast can bring once you are and not make your handbag space or bookshelves' come to be full because you can have it in your lovely laptop even cellphone. This Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast having fine arrangement in word along with layout, so you will not truly feel uninterested in reading.

#### **Glenna Monaghan:**

Now a day people who Living in the era where everything reachable by connect to the internet and the resources inside it can be true or not demand people to be aware of each data they get. How a lot more to be smart in having any information nowadays? Of course the reply is reading a book. Looking at a book can help persons out of this uncertainty Information specifically this Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast book since this book offers you rich data and knowledge. Of course the details in this book hundred per cent guarantees there is no doubt in it as you know.

#### **Karen Baskin:**

The reserve untitled Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast is the book that recommended to you to read. You can see the quality of the book content that will be shown to an individual. The language that writer use to explained their way of doing something is easily to understand. The copy writer was did a lot of investigation when write the book, so the information that they share for you is absolutely accurate. You also will get the e-book of Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast from the publisher to make you considerably more enjoy free time.

#### **Vincent Espinoza:**

Book is one of source of understanding. We can add our information from it. Not only for students and also native or citizen will need book to know the up-date information of year in order to year. As we know those textbooks have many advantages. Beside most of us add our knowledge, could also bring us to around the world. With the book Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast we can get more advantage. Don't you to definitely be creative people? Being creative person must love to read a book. Simply choose the best book that suitable with your aim. Don't always be doubt to change your life at this time book Linear and Non-Linear Video and TV Applications: Using IPv6 and IPv6 Multicast. You

can more attractive than now.
