**Gramsci, Materialism, and Philosophy (Routledge Studies in Social and Political Thought)** Esteve Morera

Western critical theory, Marxism included, has largely been based on a view of historical materialism that Gramsci, among others, developed in his prison notebooks. For many, Gramsci's philosophical reflections in prison offered a new foundation for the philosophy of the future. His reflections on the philosophy of praxis and absolute historicism find echoes in much of what today is considered to be a materialist philosophy. That form of materialism was unable to provide a sound foundation for a progressive social project, the possibility of a meaningful and creative ethical life, and the forms of activity or praxis that would be conducive to creating good society.

In this book, Esteve Morera connects Marxist philosophy to the broader philosophical discussion of materialism in metaphysics, the philosophy science, philosophy of mind, and naturalised ethics. Each chapter deals with a particular aspect related to materialism and its consequences, the sorts of things that, if materialism is true, need to be confronted. Morera critiques, and rejects Gramsci's conception of matter and materialism and concludes that that philosophical materialism is compatible with freedom, and as a consequence, offers a good foundation for ethical life.

*Gramsci, Materialism, and Philosophy* is an original contribution to the philosophically vital debates around the meaning, limitations, implications, and possibilities of philosophical materialism as it is a contribution to the critical literature on Gramsci.
