## **Penombre (Poesia) (Italian Edition)** Emilio Praga

La scapigliatura milanese ha trovato in Emilio Praga uno dei suoi principali esponenti. In questo testo poetico, con influssi precisi del "maledettismo" baudleriano, troviamo una radicale rottura con gli schemi precedenti sia sul piano linguistico - realistico, violento, "plebeo" - sia su quello tematico, istituendo da subito un legame con la materia della realtà, con le sue figure più dimesse e con i luoghi più desueti. La tensione anticonformistica e antiborghese è evidente in tutto il testo: alla tranquillità del mare, dei monti o della campagna, popolata da pescatori, mozzi e nocchieri, mandriani e contadine, si oppone la realtà cittadina e la frenesia di un mondo industriale fatto di fabbri e arrotini, servi e facchini, di officine stridule, opifici oscuri. E' la celebrazione degli umili e del lavoro proletario contro il conservatorismo falsamente moralistico della borghesia industriale, ispirata da una Milano in trasformazione e in crescente e costante movimento.
