**Using Multiliteracies and Multimodalities to Support Young Children's Learning** Marie Charles, Bill Boyle

'This is a timely book that effectively challenges the current emphasis on a homogeneous approach to teaching, learning, and assessment in early literacy. It encourages us to engage with the real world complexity of young children's learning and offers a series of rich and detailed examples of this in practice.'

*- Sally Neaum, Teesside and Durham Universities, and Author of Beyond Early Reading*

Grounded in classroom practice, this practical book shows trainees and current teachers how to scaffold children's literacy using a creative and supportive approach. It offers teaching strategies for Multiliteracies (fiction, expository/instructions, poetry, recount) and Multimodalities (reading, writing, speaking, listening, performing, illustrating) and helps to develop a relationship between teacher and learner.

Chapter topics include:

- socio-dramatic play
- collaboration
- guided group teaching strategies
- integration of genres.

This clear and accessible book will be extremely valuable to students and practitioners on PGCE programmes, B.Eds, Masters, workshop and conference CPD, and advanced Teaching Assistant training.
