Because of its powerful socializing effects, the school has always been a site of cultural, political, and academic conflict. In an age where terms such as 'hard-to-teach,' and 'at-risk' beset our pedagogical discourses, where students have grown up in systems plagued by anti-immigrant, anti-welfare, 'zero-tolerance' rhetoric, how we frame and understand the dynamics of classrooms has serious ethical implications and powerful consequences.

Using theatre and drama education as a special window into school life in four urban secondary schools in Toronto and New York City, *The Theatre of Urban* examines the ways in which these schools reflect the cultural and political shifts in big city North American schooling policies, politics, and practices of the early twenty-first century.
