Einhorn and Logue analyze the political, economic, and social challenges facing five small, affluent, and advanced industrial democracies in Scandinavia: Denmark, Finland, Iceland, Norway, and Sweden. Updated and expanded from its successful predecessor, this edition emphasizes how global and European developments have affected democratic policymaking in areas such as:

- Social welfare policy
- Employment policy
- Labor relations
- Economic policy
- Social change

A comprehensive yet accessible survey of political history, governmental institutions, policymaking, political parties, interest groups, political culture, and foreign relations is also included. The comparative and interdisciplinary focus makes this a stimulating source of ideas for anyone interested in democracy and social justice in the global era.
