## **Varieties of Anti-Fascism: Britain in the Inter-War Period**

This volume of essays by a number of the foremost experts in the field examines the varieties of anti-fascism in inter-war Britain. Anti-fascism between the wars is still most frequently associated with the extreme left and its violent street confrontations with Mosley's British Union of Fascists. By extending the scope of anti-fascism to include centre and right-wing opinion, and a wide range of institutions, this book breaks new ground. Chapters examine the state, political parties of left and right, the media, the churches, the involvement of women, and the responses of intellectuals. It also discusses the impact of European anti-fascist exiles and the legacy of anti-fascism on the post-war British Establishment.
