## **Know Your Magnetic Field** William E. Gray

The theory presented in this book is new only in the sense that it has been revitalized of recent date. It is, in fact, as old as the world. Those who have seen the results of this theory in practice have called it miraculous. Others who have yet to see and learn and understand have called it fakery. I have taken upon myself the task of trying to give as complete and accurate a picture of a person working with this theory as my ability permits. To understand him and interpret him for you is what I am trying to do. He thinks and acts from unshakable knowledge through a Source which most of us are only beginning to recognize dimly. The way in which the Source works through him will have to be understood for us to accept. With my first grasp of this work I suggested that this understanding belongs to the people. He agreed and said he had known for some time that he should try to explain his perception of human energy. This wisdom was present from his birth but its application and growth came about through experiment and experience to the highly developed talent it is today. Endless discussions, arguments and bewilderment went into my education. Revolutionary ideas were hard to accept at first but repetitious proof left me no choice but to accept and believe. I found explanations for conditions that until now had no explanations. The accomplishment of restored health through the revitalization of nervous systems I have witnessed for over a year now.
