Principals are often called the second most crucial in-school influencers (after teachers) of student learning. But what should the principal do in order to maximize student achievement? He shows systematically how the principal's role should change, demonstrating how it can be done in short order, at scale.

- Reveals the three key roles that administrators must play in today's schools
- Explains how to choose the right versus wrong drivers of school success
- Filled with "action items" to help implement Fullan's program effectively
- Includes strategies that have been successfully field-tested in schools across the United States and Canada
